João Palmeiro

Lisbon, PT ✉ joaopalmeiro@proton.me 💬 t.me/joaopalmeiro

Hi! I'm João and I'm working as a Data Visualization Engineer at Feedzai. As part of the Research Department, we develop new charts and tools to support data scientists and fraud analysts. Each day is a mix of User Experience, Data Visualization, and Python/Front-End Programming. Also, I enjoy working on (personal) open-source projects, exploring/visualizing different datasets, and eating (I really like food).

Experience

Data Visualization Engineer, Feedzai
Full-time • Since Mar 2021

| PAPER | *Data+Shift*: Supporting visual investigation of data distribution shifts by data scientists • palmeiro.link/ds-paper • palmeiro.link/ds-slides |
