João Palmeiro

Data Visualization Engineer at Feedzai
Portugal

Resumo

Hi ! I'm João and I'm working as a Data Visualization Engineer at
Feedzai. As part of the Research Department, we develop new
charts and tools to support data scientists and fraud analysts. Each
day is a mix of User Experience, Data Visualization, and Python/
Front-End Programming. Also, I enjoy working on (personal) open-
source projects, exploring/visualizing different datasets, and eating (I
really like food).

Hard Skills Tutor
fevereiro de 2017 - julho de 2018 (1 ano 6 meses)

At BEST, we have an internal event that aims to train a group of people to develop the skills needed to ensure a good knowledge transfer and raise a new generation of Hard Skills Tutors. So, I had the opportunity to become one in Tallinn, Estonia. To this day, I have delivered 11 sessions in a total of 31 hours on various topics, such as Grants, Virtual Teamwork, Productivity Tools, and Graphic Design.

Member
novembro de 2015 - julho de 2018 (2 anos 9 meses)

Secretary | Design Department of BEST
junho de 2017 - junho de 2018 (1 ano 1 mês)

For a year, I was in charge of knowledge management and a part of the task management of one of BEST's international departments, as well as one of the people responsible for ensuring that the Design Department of BEST fulfils its purpose of maintaining and strengthening the image of BEST.

Coordinator | External Events Posters Project
maio de 2017 - outubro de 2017 (6 meses)

Every year, this project sets the ground for promoting two of BEST's services by creating posters and a style guide for the remaining materials to be created during the year. In this way, I had the opportunity to coordinate a team of 5 designers from 4 different nationalities, culminating in high-quality outcomes and whose internal reception was quite good.

EBEC Portugal
Secretary
setembro de 2016 - julho de 2017 (11 meses)

BEST has awakened my passion for organising competitions where people from diverse backgrounds come together and find different and innovative solutions to problems in a competitive but healthy environment. This feeling made me apply for this position. Fortunately, I had the opportunity to contribute to the Portuguese national round of EBEC and be responsible for the knowledge management/communication between the various parties involved internally.

BEST Lisbon
1 ano 6 meses

Vice President for Internal Support | 30th Board of LBG Lisbon
maio de 2016 - maio de 2017 (1 ano 1 mês)
Lisbon, Portugal

Being Vice President was the most intense and magnificent experience of my life to this day. In addition to the strategic and leadership work associated with a group of more than 50 people, I was responsible, among many things, for supporting the Coordinators of each of the five areas of BEST Lisbon, the internal events, and the members' training plan.

Marketing Responsible | 5th Edition of BEST Inside View
dezembro de 2015 - julho de 2016 (8 meses)
Lisbon, Portugal

One month after I became one of the newest members, I was pleased to become responsible for the Graphic Design component, as well as for ensuring the communication with the Public Relations component, for the 5th

Edition of BEST Inside View (BIV). BIV is the job shadowing event that BEST Lisbon organises annually.

Main Organiser | LBEC EDP Starter
abril de 2016 - junho de 2016 (3 meses)
Lisbon, Portugal

As Main Organiser of this event, I was responsible for ensuring the communication with EDP Starter after the partnership was closed, the logistics of the event, the development of a short script for the theme of the Case Study (beacons), and, above all, a different and very rewarding day for 18 participants divided by six teams.
